

MacD is proud to announce its expanded Assembly Capabilities in 2020

MacDiarmid Machine (MacD) is a Precision Machine & Assembly Shop providing high quality, cost effective and supply chain solutions for our customers.

Bring us your Ideas and we will make them a Reality.

MacD can assist you with designing your parts for manufacture, machine them, handle the supply chain and assemble the final product.

By listening to our customers, we also offer the following services and solutions:

Kitting - group together the components you need for a specific purpose or assembly.

Stocking Solutions - MacD offers the ability to place “Blanket Orders” for parts you will ultimately need.

Supply Consolation - MacD being part of the Potentia Manufacturing Group Network makes it easier to go to “One Supplier One Solution”.
